Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Wednesday 23 Jun 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Often cloudy with patchy light rain affecting the north.

This Evening and Tonight:
A cloudy evening for northwestern areas, with patchy light rain or drizzle overnight. Drier with clear spells elsewhere, at first, but cloud will thicken overnight. Minimum temperature 11 deg C (52 deg F).

Thursday:
A cloudy morning with some patchy light rain slowly sinking southwards. Becoming drier and brighter for the afternoon, but with a risk of some showers. Further rain arriving overnight. Maximum temperature 20 deg C (68 deg F).

Outlook for Friday to Sunday:
Friday to Sunday, changeable with outbreaks of rain or showers, some of these heavy and possibly thundery, and some drier, brighter interludes with some sunny spells.
